Required:

Examine four information communication technology (ICT) related reasons that might be causing the decline. (8 marks)

- (c) Asha Nzale has a hardware shop and lately, she is finding the task of managing daily sales in the shop overwhelming.

Required:

- (i) Propose a retail system that she should acquire. (2 marks)
- (ii) Apart from enhancing the speed of operation, summarise five other benefits that Asha will gain from using such a system. (5 marks)

(Total: 20 marks)

QUESTION SIX

- (a) In the context of computing, differentiate the following terms:

- (i) "Internet of everything" and "internet of things". (4 marks)
- (ii) "Deterministic system" and "stochastic system". (4 marks)
- (iii) "Closed system" and "open system". (4 marks)

- (b) Describe four types of feasibility studies that could be conducted during systems development life cycle (SDLC).

(8 marks)

(Total: 20 marks)

QUESTION SEVEN

- (a) (i) Highlight six reasons why online marketing is preferred over offline marketing. (6 marks)
- (ii) Outline two limitations of online marketing. (2 marks)

(b) When assessing risks facing an information system, one would need to consider the impact, likelihood and urgency.

With regard to the above statement, explain:

- (i) Impact. (2 marks)
 - (ii) Likelihood. (2 marks)
 - (iii) Urgency. (2 marks)
- (c) (i) Discuss four features of Business Process Reengineering. (4 marks)
- (ii) Describe two benefits associated with the implementation of Business Process Reengineering. (2 marks)
- (Total: 20 marks)**
